

President's Report for we February 12th

Our Friday meeting this week will be fairly jam packed , with not only a presentation from John Bilboe and the team on their recent Trip to the Phillipines, but also a further short presentation and update from Michael Yabsley on the Club's new website and how all Club members can take advantage of the many benefits and areas of interest that the new website offers. Michael has devoted a lot of personal time and thought into putting this new website together and your Board is determined to make sure that as soon as practicable the Club's new website becomes the primary source of all Club information. Can I ask all Club members to please log onto www.illawarrasunrise.org.au and have a browse around the site to familiarise yourself with it's contents before Friday's meeting .
