

President's Report for W/E April 8th 2016

I think all Club members who attended last Friday's meeting will agree that our Guest Speaker Michael Fernandez OAM from the Illawarra Shoalhaven Local Health District , talking about the local Drug and Alcohol scene in the Illawarra . It was a most thought provoking and insightful presentation on these 2 major problems confronting every community today and the terrible price it pays on the individual, their families, the community and our Health system.

I'm sure that Michael would be most welcome back in the next 12 months to 'continue the conversation' with us. A big thank you to Peter Hill for securing Michael for this presentation. More background information from Michael's talk is found elsewhere in the Newsletter.
